The image features a woman with dark hair resting her head on her hand, eyes closed, with glowing particles floating around her head. She is wearing a patterned orange and black top. The background is a warm-toned photograph of a spa environment. A logo for "The Sense Spa" is positioned at the top center, featuring a stylized hand holding a flower. The overall theme is relaxation and wellness.

A photograph of the Horn Grill Steakhouse. The top half features a large, stylized longhorn logo above the words "HORN GRILL STEAKHOUSE". Below the logo, the words "Indoor & Outdoor Dining" are displayed. The bottom half shows the interior of the restaurant, which has a rustic, wood-paneled look with several tables and chairs arranged throughout.

The advertisement features a large, stylized blue and yellow fish logo at the top left. To its right, the text "SEE MAP 8 A15" is displayed above a vertical column of numbers. A black telephone icon is positioned next to the numbers. Below the logo, the text "Phuket Scuba Club" is written in a blue, flowing script font. In the center, a photograph of a scuba diver waving is set against a blue background. To the right of the diver is a square logo for "PADI INTERNATIONAL RESORT ASSOCIATION" featuring a yellow palm tree. At the bottom, a list of services is presented in a bulleted format, followed by the website and email address.

Phuket needs foreign blood

PHUKET: Vachira Phuket Hospital's blood bank is in need of new donors and Phuket's foreign residents with Rhesus-negative blood are being called on to sign up as donors before the coming high season

The blood bank is joining up with Phuket Red Cross to collect the contact details of people living in Phuket with Rh-negative blood who can then be called on during an emergency

Vichote Burapachanok, medical scientist at the blood bank, told the Gazette that only 0.3% of Thai people have Rh-negative blood.

"We just need the names and addresses of people who have this blood type who would be willing to donate"

"We need to get as many people as possible in case there is a large accident during the high season. Blood can be kept in storage for up to only 35 days," said K.Vichote.

For more information contact K.Vichote. Tel:076 369188 Email your name, address and telephone number to phuket_negativeblood@hotmail.com
